A meeting of the Assam Board of wafs was held in the Beard's Office with Hafzs Ahmed Choudhury in the Chair on 17/09/ 2005 at 11-30 A.M. After discussion the following decisions were taken.

1. The Secretary read out the proceedings of the last meeting of the Board held on 05/02/2005 and these were confirmed
2. The position of different Suits and Cases tnrespect of Ohtdur Rahman wakf Estate was reviewed and it was found that the following Suits and Cases were pending.

a) T.S. No. 267/1998 and Misc.(J) Case No. 295/1998 filed by the Board against M/S. Buulders Brothers (Theater) Ltd. in the Civil Court and Transferred to the Wakf Tribunal and re-numbered as W.T. Case No. 1 of 2003.

b) T.S. No. 73/2002 and Misc (J) Case No. 49/2002 filed by M/S Deb Brothers and Co. against the Board in the Court of the Civil Judge, Senior Division No. 2 Guwahati.

c) T.S No. 111/2002 and Misc(J) Case No. 81/2002 filed by Shri Dilip kumar sen and other, against the Board in the Court of the Civil Judge (Sr) Division No. 2, Guwahati.

d) T.S. No. 423/2004 filed by Mrs. Hasna Ara Begum and others in the Court of Civil Judge. Sr. Division No. 2 Guwahati agatnst the Board.

e) There had been a discuss.ton between the representatives of the Board including the Mutawalli of Ohidur Rahman Wakf Estate led by the Chairperson and the the representatives of M/S. Deb Brothers led by Sri Indranil Deb on 5/7/2005 in Hotel Dynesty , LaKtokta, Guwahati, regarding the Construction of a Multistoryed Commercial Complex named Ohidur Rahman Commercial Complex in part of Ohidur Rahman waft Estate at Fancy Bazar. The matter requires further discussion.

The Chairperson placed in the meeting a copy of proposal submitted by Sri Indranil Deb of Deb building, Hem Boruah Road, Guwahati Fancy Bazar for taking lease of Deb Building for an annual rent of Rs. 25,000/- (Rupees Twenty Five thousand) only. This building has the following business enterprises and Bank.

1. Bank of India, 1st floor.
2. Mr. D. Mazumder, 1st floor.
y. Rajdhant Gun House, Mezzaine floor.
4. North East Arms Agency, Ground floor.
5. Top-son, Ground Floor.
6. Mohini's Ground floor.
7. Singh Cycle stores, Ground floor.
8. Ugent Raj Jain, Ground floor.

It appears that of the above two business enterprises, M/S. Rajdhani Gun House and North Eastern Arms Agency have already obtained lease directly from the Mutawalli of the Ohidur Sahman wakf Estate vide unregistered lease Deed dated 01/11/2003 at the Rs. 500/-(Rupees Five hundred) per month for three years with effect from 01/1/05. So giving lease of Deb Building including Rajdhani Gun House and North East Arms Agency to Sri Indranil Deb will not be legally admissible because of the subsistence of the aforesaid lease agreement dtd. 01/11/2003. Besides, the annaul rent proposed amounting to Rs. 25000/- is very small. So to examine the matter and suggest further action in it a Sub-Committee is constituted with the following member :-

1. Jonab Sahidul Alam Choudhury, MLA	Member-Convenor.
2. Jonab Amtnul Islam.....	Member
J. Jonab Inam Uddln Ahned.....	Member
4. Jonab S.A Mazoomder, ACS.....	Member

Jonab S.A. Choudhury will act as Convenor of the Sub Committee.

In this context it is made clear that the compromise proposal regarding construction of Ohidur Ranman Commercial Complex with M/S Deb Brothers led by Sri Indranil Deb and the Compromise proposal regarding lease of Deb Buliding led by Sri Indranil Deb of Deb Building are two completely separate proposals and hence they are to be dealt with seperately without tagging one with the other.

Since a Sub-Committee is constituted it is also entrusted with further discussion with M/S Deb Brothers represented by Shri Indranil Deb regarding the Compromise proposal in respect of Construction of Ohidur Rahman Commercial Complex.

Jonab Sahidul Alam Choudhury, M.L.A. and a member of the

Board apprised the meeting of having received a compromise proposal from M/S. Goenka regarding taking of lease of properties of Ohidur Rahman wakf Estate, The Sub-Committee shall also examine it and suppest further action in the matter.

The Mutwwalli of Ohidur Rahmin Wakf Estate Jonab Inam Uddin Ahmed who is also a member of the Board and a member of the Sub-Committee shall submit the draft of the proposed lease Agreements to the Sub-Committee for its scrutiny and suggestion regarding their acceptance.

3. Md. Abdul MaliK Laskor alias Alim uddin, Mutawalli of Chabura Bibi Wakf Estate being the Immam of Bakatpur Mosque and Sri Nizam uddin Laskar, president of Bakatpur Massid Committee, Dist. Cachar, submitted an application dated 24/07/005 for permission to sell the wakf Land of Chabura Bibi wakf Estate measuring 1 Bigha, 4 Kathas 4 Chattaks covered by Dag No. 367 under 2nd R.S.Patta No. 122 of Ambikapur part IX and in liew thereof to purchase a suitable Plot of Land with the sale proceeds because of the following reasons- The land of Chabura Bibi wakf Estate meant for the maintenance of Bakatpur Massid was agricultural land. From the application dated 24-7-2005 and the copy of the Resolution No. 1 dtd. 24.7.05 of the General Meeting it appears that there has been no indication of the price for the proposed sale of Chabura Bibt Wakf land regarding the reasonableness of price. Besides the price and particulars of the land proposed for purchase for the benefit of Chabura Bibi wakf Estate and thereby of the Bakatpur Mosque regarding the reasonablenss :- of price and suitability of the land are also not found mentioned in the application and the copy of the resolutions. It is therefore, decided to ask the applicants to furnish the following to enable the Board to take decision on the matter.

ANNEXURE-XL

INNOVATIVE SCHEME MUKHYO MANTRIR ANNA SURAKSHA YOJANA, 2010

GUIDELINES

1. Objective

Under the Public Distribution System/ Targeted Public Distribution System, the beneficiary families are categorized into three -Above poverty line (APL), Below poverty line (BPL). and Antyodaya Anna Yojana (AAY). Subsidized foodgrains are provided under PDS as per Govt of India norms.

Out of a total population of 2.66 crores as per 2001 census, now projected to be around 3.00 crores, on the basis of the decadal growth rate of 18.85 %, the Public Distribution System covers about 60 lakhs families.

Out of 19.06 lakhs families identified by the Govt of India in the State as living below the poverty line, 7.04 lakhs poorest of the poor BPL families are benefited under the AAY scheme under which, they are provided 35 kgs of rice per month at Rs 3.00 per kg, upon production of AAY cards at FP shops. The balance 12.02 lakhs BPL families are provided 32.946 kgs of rice per month per family at Rs 6.67 per kg against BPL cards. The APL cardholders get 4 to 5 kgs of rice per family at Rs 9.50 a kg.

TPDS was introduced in the State in June 1997 where foodgrains have been provided at specially subsidized rates to the 19.06 lakhs families living below the Poverty line.

Identification of the families was done as per poverty estimates of 1993-94 by the Planning Commission and the population estimates of 2000. by the the Registrar General, Govt of India . Since then, wjth the increase in the number of family members in the BPL category and resultant nuclear families, a significant number of such families remain deprived from the benefits of BPL schemes.

Further, considering the impact of natural calamities that affect a vulnerable section of the population of the State from year to year and also their backward economic condition, a huge segment of poor families qualify for inclusion in the BPL category, but for the Govt of India norms, remain deprived from the BPL scheme benefits. Food inflation has further compounded their woes by adversely affecting their purchasing power. These people are therefore in the APL category by compulsion and without choice.

To bring such uncovered poor families of the lowest strata of APL into the ambit of food security, a new scheme called MUKHYO MANTRIR NNA SURAKSHA YOJANA' for economically backward families is proposed to be implemented from 15th August 2010.

The scheme will be implemented by the Food, Civil Supplies and Consumer Affairs Department through PDS network.

living in areas perennially affected by natural calamities like floods, erosion, and remoteness/backwardness/ inaccessibility.

(27) Special care and caution will be exercised by the Beneficiary identification Committees so that no existing BPL/AAY families find place in the beneficiary lists. To ensure selection of the genuine beneficiaries, the inclusion and exclusion guidelines of the Govt should be duly complied with. Salaried Government and PSU personnel, Govt pension holders, those owning motorized vehicles, land holders other than small and marginal category, Businessmen/entrepreneurs/ industrialists and shopkeepers owning PDS and trade licences, all who pay Income tax etc should be excluded .

Government of India
Ministry of Minority Affairs

Subject: Programme and Guidelines for Preparation of Multi- sectoral District Development Plans for Minority Concentration Districts

Background

1.1 In 1987, a list of 41 minority concentration districts was prepared, based on a single criterion of minority population of 20 percent or more in a district of Census 1971 for enabling focused attention of government programmes and schemes on these districts.

1.2 In order to ensure that the benefits of schemes and programmes of government reach the relatively disadvantaged segments of society, ft was decided to identify districts on the basis of minority population of Census 2001 and backwardness parameters. A fresh exercise has been carried out based on population figures and the following backwardness parameters of 2001 Census:

(a) religion-specific socio-economic indicators at the district level -

(i) literacy rate;

(ii) female literacy rate;

(iii) work participation rate; and

(iv) female work participation rate; and

(b) basic amenities indicators at the district level -

(i) percentage of households with pucca walls

(ii) percentage of households with safe drinking water

(iii) percentage of households with electricity; and

(iv) percentage of households with water closet latrines.

1.3 Although, female literacy and work participation are included in the overall literacy and work participation rates, these are important enough to be considered separately as they constitute independent indicators of the level of development, especially gender equity.

1.4 The process of identification of minority concentration districts has been carried out aafollows:-

(a) Districts with a 'substantial minority population' of at least 25% of the total population were identified in 29 States/UTs

(b) Districts having a large absolute minority population exceeding 5 lakhs and the percentage of minority population exceeding 20% but less than 25% were identified in 29 States/ UTs.

(c) In the six States/UTs, where a minority community is in majority, districts having 15% of minority population, other than that of the minority community in majority in that State/ UT were identified.

1.5 Thereafter, the position of these districts in terms of "backwardness" was evaluated against the two sets of socio-economic and basic amenities indicators. 90 Minority Concentration Districts (MCDs) have been identified throughout the country which are relatively backward and falling behind the national average in terms of socio-economic and basic amenities indicators. Out of the 90

minority concentration districts, 53 districts have been classified in category 'A'. The remaining 37 districts fall under category 'B' of which20 districts fell behind in socio-economic parameters and 17 districts in basic amenities parameters. These have been further classified in sub-category '81' and 'B2' respectively. The lists of these districts are as Appendix-1.

1.6 The focus of. this programme will be on rural and semi-urban areas of the identified 90 minority concentration districts. A Task Force has recommended that the towns falling in the minority concentration districts, that are part of the 338 towns, should be developed as per the suggestions of the Task Force, and may be excluded from the multi-sectoral development plan being made for such districts, There are 77 such towns in the identified districts.

1.7 To enable focused attention of government programmes and schemes on these districts, the following has been advised to the Central Ministries/Departments to prepare their plans in a manner that these districts get the required attention and resources:-

(i) The schemes and programmes for poverty alleviation, education, health and other welfare schemes of government may be focused in these districts.

(ii) Existing schemes for infrastructure development, such as rural electrification, road connectivity (PMGSY) etc. may be taken up in these districts on a priority basis.

(iii) The provision for basic amenities such as pucca housing, safe drinking water supply, water closet toilets and electricity for each household may be made.

(iv) Schemes included in the Prime Minister's New 15 Point

Programme for the Welfare of Minorities may be implemented in these districts vigorously targeting each minority household and village.

(v) In the districts with low socio-economic conditions under sub-category 'B 1', special focus should be on schemes of poverty alleviation, employment generation, literacy etc.

(vi) In the districts with low basic amenities, under sub-category 'B 2', the primary focus should be on schemes for infrastructure development and basic amenities.

(vii) In category 'A' districts, the focus has to be on both types of schemes.

(viii) In the minority concentration districts in the States of Jammu and Kashmir, Meghalaya and Mizoram, where a minority community is in majority, the schemes and programmes should be focused on the other minorities.

1.8 The States/UTs have been informed to prepare their plans in a manner that these districts get the required attention and resources.

Minorities

2. Muslims, Sikhs, Christians, Buddhists and Zoroastrians (Parsis) have been notified as minority communities under Section 2 (c) of the National Commission for Minorities Act, 1992. As per Census 2001, the percentage of minorities in the country is abcut 18.4% of the total population of the country, of which Muslims are 13.4%; Christians 2.3%; Sikhs 1.9%, Buddhists 0.8% and Parsis 0.007%.

Objective

3.1 The programme aims at improving the socio-economic parameters of basic amenities for improving the quality of life

of the people and reducing imbalances in the MCDs during the Eleventh Five Year Plan period. Identified 'development deficits' would be made up through a district specific plan for provision of better infrastructure for school and secondary education, sanitation, pucca housing, drinking water and electricity supply, besides beneficiary oriented schemes for creating income generating activities. Absolutely critical infrastructure linkages like connecting roads, basic health infrastructure, ICDS centres, skill development and marketing facilities required for improving living conditions and income generating activities and catalyzing the growth process would also be eligible for inclusion in the plan.

3.2 90 minority concentration districts have already been identified by government which are relatively backward and falling behind the national average in terms of socio-economic and basic amenities indicators. These districts have a substantial minority population and are backward, with unacceptably low levels of socio-economic or basic amenities indicators, requiring focused attention and specific programme intervention.

3.3. This initiative will be a joint effort of the Centre and the States/ UTs for inclusive growth, accelerate development process and improve the quality of life of the people. The scheme aims at focused development programmes for backward minority concentration districts to help reduce imbalances and speed up development.

Multi-sectoral Development Programme (MsDP) for Minority Concentration Districts:

4.1 The Central Government has been implementing development programmes like Rashtriya Sam Vikas Yojana

(RSVY)/Backward Regions Grant Fund (BRGF) in selected backward districts and the Border Area Development Programme (BADP) in blocks bordering the international borders. These programmes target Scheduled Castes and Scheduled Tribes population including extremist affected districts and are designed to address the problems of low agriculture productivity, unemployment and to fill critical gaps in physical and social infrastructure. BADP does target the entire population living in remoie and macessible areas situated near the international border but then its scope is limited.

4.2 The RSVY/BRGF and BADP programmes do not specifically target minorities who are one of the marginalised sections of the society. Area development schemes like BRGF/RSVY and BADP had their own target groups and priorities while the latter is aimed at overall development of the entire population in the border blocks. Likewise, the target group of the proposed programme were the disadvantaged minorities. Comparison of the lists of districts i.e. RSVY/BRGF, MCD and BADP reveals that 46 MCDs are not included in the lists of RSVY/BRGF and 31 districts included in 90 MCDs have some BADP blocks. The list is enclosed as Appendix - II.

4.3 The thrust of the MsDP would be to address the 'development deficits' brought out by a baseline survey to improve the socio-economic parameters and the basic amenities parameters of the district as a whole so as to bring them at par with the national average. Critical infrastructure linkages that are required for optimizing service, economic opportunities and can act as a catalyst could also be taken up under this programme. The multi-sectoral district development plan of a district has also to be prepared in such a manner that these

districts are saturated with schemes included in the "rime Minister's New 15 Point Programme for the Welfare of Minorities within the Eleventh Plan period.

4.4 Priority for location of social and economic infrastructure should be given to villages/blocks/localities having a substantial population of minority communities.

4.5 There would be no change in guidelines of any existing scheme under implementation in such districts for which this programme would provide additional funds. As far as possible, the focus of the programme would be for providing appropriate social and economic infrastructure rather than targeting individual beneficiaries. In case schemes for individual benefits are taken up under the programme, there shall be no divergence from existing norms for selection of beneficiaries from the list of BPL families in the district, so that benefits from the additional funds flow to ail BPL families and not selectively.

Fund

5. Financial assistance would be made available to these districts to address the 'development deficits' that were either not met fully by existing schemes/programmes or catered to by any scheme/programme of the State or Central Government. The ceiling of financial assistance that may be provided to such minority concentration districts, estimated on the basis of their backwardness parameters and size of minority population. For districts which are entitled to less than Rs.15 crore on this formula, a fixed sum of Rs.15 crore has been allocated as it is doubtful if an amount lower than this could lead to any palpable improvement.

Multi-sectoral Development Plan (MsD Plan)

6.1 A Multi-sectoral development plan shall be prepared based on the baseline survey of the district carried out under the aegis of the Indian Council of Social Science Research (ICSSR), New Delhi or any suitable professional agency like a university.

6.2 Preparation of MsD Plan

(a) The District Planning Committee/District Level Committee for implementation of the Prime Minister's New 15 Point Programme shall prepare a MsD plan which shall have a district profile. It shall bring out the development deficits identified by the survey, indicate the strategy ;for addressing the deficits, propose projects/work to fill the 'development deficits' either by topping up the funds of ongoing schemes/ programmes of the Central Government or propose projects which are not catered to by existing schemes/programmes of the Central and State Governments and indicate the year-wise financial and physical phasing for implementation during the Eleventh Five Year Plan period.

(b) The committee shall ensure that the projects included in the MsD plan have not been sanctioned or proposed under any other scheme of the State/Central Government or any other source of funding including RSVY/BRGF and BADP in the blocks concerned. The filtering mechanism of the committee should ensure that there is no duplication with other public-funded schemes with similar objectives being implemented in the targeted districts. It should also be ensured that the MsD plan is in consonance with the annual plans and Eleventh Five Year Plan.

(c) The MsD plan shall contain concept papers on each of the prioritized projects accompanied by a socio-economic feasibility report justifying the proposal by clearly outlining

the gap, its criticality, goals, strategies, outcomes and benefits, milestones, approximate cost of project with year-wise financial and physical break-up, private investment participation (if any), project location, land availability and intended beneficiaries, implementing agency, duration of project, existing and proposed mechanism for implementation, management/operation and maintenance of the assets created.

6.3 Detailed Project Reports (DPR):

(a) DPR is to be prepared only for physical infrastructure projects with an estimated project cost exceeding Rs.10.00 crore, which has been accepted in-principle by the Ministry of Minority Affairs. This will not apply to topping up of funds for ongoing central schemes required for saturating the target/ gap in the district.

(b) DPRs shall be prepared by the line -department concerned of the State/UT or through the agency which will be executing the project.

(c) Each project proposal should be accompanied by a DPR. The DPR should, inter-alia, include the basic information and must establish its economic and technical viability such as its rationale, cost, funds required, similar facilities available in and around area of the project site, detailed technical specifications etc. In addition, the DPR should clearly have the following:

CPM and PERT chart;

- Year-wise phasing of inputs, viz. expenditure;
- Project Implementation Schedule;
- Certification that the cost estimates are as approved by the

competent authorities of the State/UT and that the costs are based on the latest Schedules of rates in force in the State/UT concerned;

- Intended economic/social benefit and target beneficiaries; and
- Status of relevant regulatory and statutory clearances.

(d) Three copies of DPRs for each project shall be sent to the Ministry of Minority Affairs for referring to the fine Central Ministry/department for examination and clearance.

Principles to be followed for formulation of MsD Plan

7.1 The following principles are laid down for formulation of plan:

(i) The plan for the district shall be based on the baseline survey report prepared for the district by the research institute or any suitable professional agency like a university assigned with this task.

(ii) The plan should contain projects, prioritized with inters priorities. among different targeted sectors namely, primary/ secondary education, drinking water supply, electricity, health, sanitation, housing, and income generating activities. This will be done similarly for critical infrastructure required for overall development of the district. It may include projects for carrying out social mobilization and sensitization campaign to send children to schools, provide employment opportunities to women, etc. for improving the socio-economic parameters in the districts.

(iii) It should be ensured that the funds provided for the MCDs are additional resources for these districts do not substitute State Government funds already flowing to the districts. To prevent

diversion of funds from MCDs, the flow of funds to the district concerned in the previous year will be taken as a benchmark.

(iv) It should be ensured that there is no duplication with other public: funded schemes with similar objectives being implemented in the districts.

(v) Resources and attention should be given according to the level of deprivation of the district concerned to improve the socio-economic parameters of minority communities and the basic amenities parameters subject to the ceiling of financial assistance that may be provided to such districts.

(vi) Priority may be given to projects that focus on villages/blocks/ localities, having a substantial minority population and among them that concentrate on the poorer pockets/ disadvantaged communities

(vii) Projects; for creation of physical, assets should be for providing critical infrastructure linkages that are required for optimizing services and providing livelihood support, to bring the identified districts at par with the national average.

(viii) The total investment for infrastructure projects shall normally not exceed 50% of the district's. share of fund. However, this may be relaxed depending/on the severity of lack of critical infrastructure in the district

(ix) All projects included, in the MsD plan are to be completed within the Eleventh Plain period. No cost over-run would. be permitted under this programme. In case of any cost escalation, it would be borne by the State Government

(x) Peoples' participation and involvement, of PR's, NGOs and Self Help "Groups should1 be ensured at every stage including plan formulation, implementation and monitoring.

(xi) Proposed projects should be sustainable and assets created with care so that they are useful and maintained even after the project is over.

(xii) MsDP shall be implemented through the State/Central agencies only. The State may, however, decide to execute the project through any qualified, reputed, experienced agency, Including-renowned and widely accepted NGOs, justification for which should be mentioned in the proposal.

(xiii) A district map should be provided indicating in different legends/colours the location and coverage of social and physical projects,

(xiv) Creation of new posts under this scheme is strictly prohibited. It would be the responsibility of the State Government/UT administration to ensure that staff required for operationalisation of assets proposed to be created under this programme is already available or will be provided by them. No recurring expenditure would be funded from Central Government resources under the scheme and it should be the responsibly of the States/UTs to ensure that assets created under this programme were maintained by them.

(xv) All plans/DPRs should be forwarded to the Ministry of Minority Affairs by the Department in the State dealing with minority welfare/affairs. This system of communication will apply to correspondences as well.

(xvi) Following criteria would further guide the project identification exercise for employment aryl income generation projects:

(a) The district plan should give special attention to projects for infrastructure development of skill and vocational training.

(b) The district plan should give special attention to projects for

entrepreneurship development.

(c) Projects for self-employment/income generating activities should be based on credit rather than subsidy and should be designed to leveragee larger investment as loans from the banks/financial institutions and beneficiary contribution. However, this may be relaxed for subsidy linked schemes of the Central Government which are absolutely essential to augment resources for expanding coverage of the scheme. In such case, the subsidy should be kept at the same level as provided in the Central Government schemes/programme.

(d) There wou!H be no change in guidelines of any existing programme under implementation in such districts for which this scheme will provide additional funds. As far as possible, the focus of the programme will be on providing appropriate social and economic infrastructure rather than targeting individual beneficiaries. In case schemes for individual benefits are taken up under the programme, there will be no divergence from existing norms for selection of beneficiaries from the list of BPL families in the district, so that benefits from the additional funds flow to all BPL families and not selectively to families of minority community.

(xvii) Following criteria would further guide the project identification exercise for creation of social and economic infrastructure and community assets:

(a) Social and economic infrastructure projects exceeding Rs.10 crore for a project would not be generally funded. However, this may be relaxed if the infrastructure proposed to be created is designed to benefit a large population.

(b) Land acquisition costs cannot be covered under this programme.

This shall be borne by the State/UT;

(c) Project should be recommended based on its soundness.

(d) Financial assistance .from this programme cannot be utilized for construction or renovation of administrative buildings, establishment costs/staff costs etc.

(e) No staff component - either work charged or regular - shall be created by the project implementing authorities from this programme.

(f) Special focus for creation of social and physical infrastructure may be given to the following sectors:

- Infrastructure for health Care and nutrition, particularly for strengthening and provision of facilities to improve services.
- Infrastructure for education and literacy, particularly for strengthening and provision of facilities to improve its quality.
- Augmentation of infrastructure for technical/skill/vocational training to upgrade economically relevant skills and other traditional/artisana) skills in tune with the emerging demands in the market.
- Land and water management including check dams, revitalization of traditional water structures, small lift irrigation projects, mini diversion weirs, introduction of high value crops [suited to local conditions, etc. leading to increase in income from agriculture activities.
- Improving yields from dairying, small animals and fishery, etc. through back-up of veterinary facilities and marketing infrastructure.
- Filling in critical gaps in infrastructure such as vital connecting road links, skill development infrastructure,

markets, water and electricity supply etc. which are essential for optimizing the operation of services and facilities. .

Appraisal of DPR:

8.1 The DPR of projects approved in-principle should not have a cost variation of more than 15% of the estimated cost indicated in the concept paper.

8.2 The DPR shall be referred to the Central Ministries/ Department dealing with the subject, and projects not covered by any existing schemes/programmes of Central Ministries/ Departments will be referred to the Planning Commission, for examination from techno-economic angle within a given time frame, i.e., six weeks.

8.5 The DPRs will be referred back to the State Government/UT administration for revision only if there is a major change in technical specifications, which also involve revision in the cost of the project. The revised DPR would be examined by the subject matter Ministry/Sectoral Technical Committee.
